## Miscellaneous Notes

- There will not be a December, January, February, and March newsletter. Officers will continue to work during this time preparing for the 2019 season. The first general meeting of 2019 will be April 22. Have a great holiday season! Be safe! Have a happy and healthy new year!
- Our club plans to participate in some parades next year; stay tuned for more information.
- We will host a booth at the WATVA meeting in April.
- We plan to participate in the Outdoor Recreation Expo next September in Tomahawk.
- We hope to host a "Harrison Hills ATV Club night" at a baseball game in Harrison next year.

## Winter ATV/UTV Use

Snowmobile trails are not automatically open to ATV/UTV use. In many cases it is illegal to operate on a snowmobile trail. Violating this law threatens current and future opportunities to have joint use trails. Check locally for special ATV/UTV allowances on county snowmobile trails.

- You must slow to 10 MPH or less when within 100 feet of an ice fishing shanty (ice shack) or person not on a snowmobile, ATV or other motorized vehicle.
- ATVs/UTVs modified with after-market tracks and or skis are not considered snowmobiles and cannot be registered or used as such. They may be operated on frozen waterways and private property with permission.
- Check with local law enforcement agencies or DNR offices daily to get the most current information on ice conditions.

No one expects to break through the ice, so be prepared by carrying the following equipment with you: life preserver or float coat - length of rope - ice picks - ice creepers - cell phone

## ATVs/UTVs and Snow Removal

A person may operate an ATV with a snow removal device attached, for snow removal purposes and under the following restrictions:

- At a speed not to exceed 5 mph while on a public sidewalk
- At a speed not to exceed 15 mph while on or adjacent to a roadway
- Operation is allowed on all roadways where the motor vehicle speed limit is 45 mph or less
- Operation shall be restricted to the far right hand side of the road
- Operation is also allowed on roads that are legal and open ATV Routes
- Operators must be 16 years or older and if born on or after January 1, 1988 must also possess a valid ATV Safety Certificate
- Operation is only allowed between October 1 and April 30 for the purpose of removing snow
- Operators may not travel at a distance greater than 2 miles from their original starting or loading point
- Machines must display one or more illuminated, yellow lights that are flashing or rotating and visible for 360 degrees

Other Provisions: A city, village, or town may enact an ordinance authorizing the operation of ATVs with snow removal devices (that are operating for snow removal purposes) on roads where the speed limit is greater than 45 mph, if the road is located within the territorial boundaries of that city, village, or town.
